GRAF ZEPPELIN READY FOR ATLANTIC HOP

DALE JACKSON, and Forest O'Brien, who have broken all refueling endurance flight records, landed last night at 7:37 C. S. T., after having been in the air for 420 hours and 20 minutes. The Robin, their record plane, is shown above during one of the refulings.

AIRSHIP WILL START TRIP TODAY

FRIEDRICHSHAFEN, Germany July 30.—(UPI)—The dirigible Graf Zeppelin was ready tonight for another attempt to fly to the Atlantic ocean to America and her officers were confident that the attempt will be successful.

Eight weeks of toil have remedied the motor defects which forced the dirigible to turn back on the last attempt to fly to Lakehurst, N. J. Officials said they have every confidence that the trouble has been completely overcome and that there is no danger of repetition of the battle with winds over the Rhone valley last spring.

Americans Aboard
Several Americans will be aboard, Mrs. Mary Pierce of New York, who was on the Graf Zeppelin last time informed officials however, that she has abandoned her plans to be aboard Thursday morning. She sent a telegram to

Troth Told By Movie Actress

SUE CAROL, motion picture actress who has announced her troth to Nick Stuart, film actor.

CLYDE WATER STORAGE BIDS TO BE OPENED

NEWARK, N. J.—July 30—(UPI)—Col. and Mrs. Charles A. Lindbergh escaped injury a second time today when their plane ground looped as it landed at the Newark airport at midnight.

The same plane was slightly damaged earlier today when the Lindberghs landed at Port Columbus, Ohio.

In landing here tonight the plane was seriously damaged with the left wing and left wheel broken.

The Colonel and Mrs. Lindbergh

were able to climb from the plane unscathed.

Striking the most sensational blow yet conceived in the Soviet war on religion, the communists demolished the shrine during the darkness of night and Moscow awoke this morning to find it gone. The Iberian gate was found

damaged.

Colonel Lindbergh and his bride

made no comment. They were

driven away immediately in an automobile by J. A. Beck, chief

mechanic of Colonial Airways, to the Dwight Morrow estate.

William Conradt, a mechanic

who had been working on the

plane, was found dead.

OUR OWN DAILY MAGAZINE PAGE

THE WOMAN OF IT

BY MARGUERITE MOOERS MARSHALL

Copyright Press Publishing Company (New York World) 1929

"The World in a Grain of Sand"

I think most of little things
Of the garden's grass and flowers,
Of music's comfortings.
I think not of time but hours;
I think not of space, but things
Or delicate food and dress,
I think not of fate's machine
That rolls its infinite gears,
Nor of vanishing scenes.
Deceived by the stream of years,
There is no joy, and thought,
On hope in taking thought
That shakes the solid ground,
And leaves one puzzle-bound,
The pot of suns and stars,
But let your mind digest
To boats and motorcars,
And gems and colored dress;
Be no philosopher
Mazed in an endless past,
But turn your gaze on her
Half-slept and to be kissed.

J. H. WALLIS.

"They Work, Just as Other Women Do, and Just as Men Do"

CHAMPIONS of the married woman who works outside her home for money may uphold her—rightfully, we think—on grounds of abstract right; but a defense even harder to combat is her right to work because she needs the money. That unanswerable argument has just been advanced for her again by Mary Anderson, chief of the women's bureau of the United States Department of Labor.

What aroused Miss Anderson was somebody's blithely proposal that in the pending unemployment census, married women customarily wage-earners but now unemployed be omitted because, "forsooth, they only work for pin-money," and "they are not really unemployed, since they are housewives and should be regarded as fully employed at home."

"Pin-money indeed!" snorted Miss Anderson. "I thought that old ghost was laid." She will make an official protest, in which she advises other American women to join, if wives who work for wages whenever they can get a job, and who now can't get one, are reinstated as recipients of unemployment.

Here is what this greatest official authority on working women has to say about the fifty-fifty wife:

"All our surveys have shown, as every woman knows, that married women do enough to earn their keep, whatever that may be. They work just as other women do, and just as men do, for money because they need it. The married woman's earnings go into the family budget, as investigations and surveys repeatedly have shown. If proof were needed of a fact so obvious."

OPONENTS of the wage-earning married woman are invited to survey the following statistically summarized case for her:

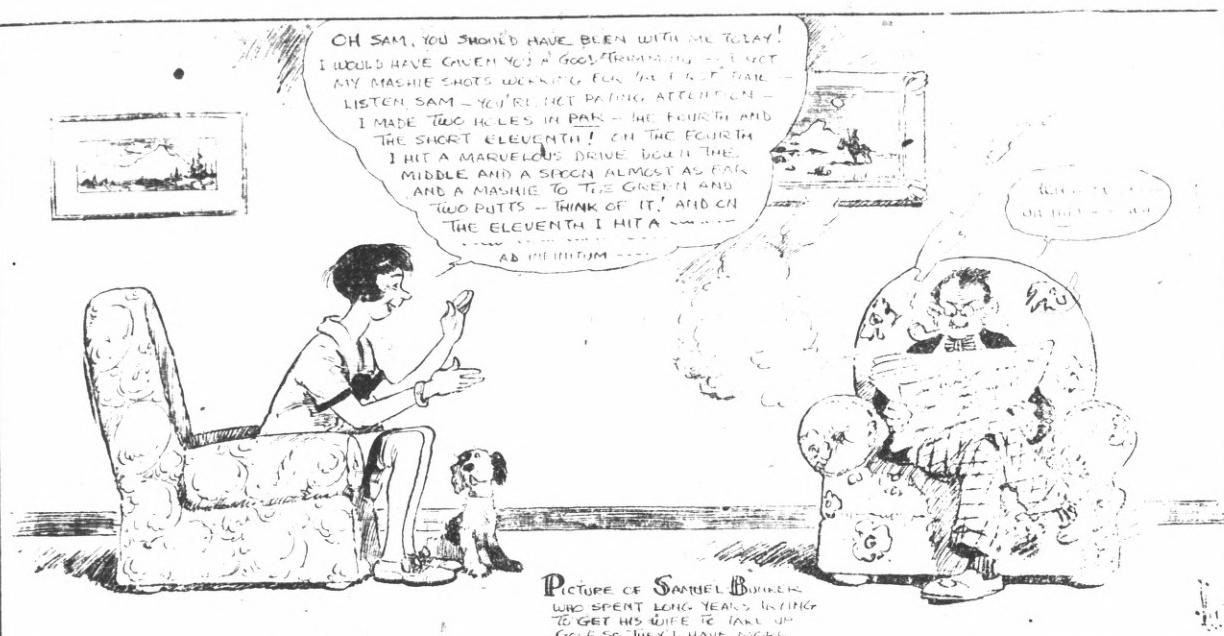

The cost-of-living survey made by the United States Bureau of Labor Statistics in 1918-1919, covering more than 12,000 families of wage-earners and small salaried men in 92 cities and towns, showed an average of 4.9 persons per family, with the average year's expense totaling \$1,434.

The husbands in these families on the other hand had average earnings of \$1,349—which means an average deficit of \$85 per family.

Prof. Paul H. Douglas of the University of Chicago estimates that the

frozen dainties that make themselves in the mechanical refrigerator to the complete satisfaction of the culinary artist.

Ripe berries and fruits, canned fruits and fruit juices combined with heavy cream or gelatin, when frozen, without attention in a comparatively short time, three to six hours as a rule.

It goes without saying that the dainties when put into the refrigerator and the number of trays to be used, determine the time required to do with the time required.

NANCY DORRIS for feeding, likewise putting warm food into the food compartment during the period of freezing increases it.

Plain Persian blue was the color chosen for the carpet, and a taffeta upholstering for the furniture.

The sofa given a cover of deep pink linen bound with mulberry and over the divan hung an old English panel of embroidery done in silk thread on white linen in the most exquisite Louis Quatorze design. Blue and soft old wood colors were all found in a number of modern things.

Place the sugar and water in the saucepan, mix until dissolved, and bring to a boil. Cover and let boil two or three minutes without stirring. Test at the end of two minutes. Probably three minutes will be required to reach the thread stage.

When the syrup shows the thread add the grated orange rind and juice and grate the yellow, sweetened orange rind, adding the white under covering. Measure. Then squeeze the juice and measure.

Place the sugar and water in the saucepan, mix until dissolved, and bring to a boil. Cover and let boil two or three minutes without stirring. Test at the end of two minutes. Probably three minutes will be required to reach the thread stage.

On either side of the panel were fine old Japanese prints in the muted pink tones of Persian blue found elsewhere in the room. Lampshades were extremely simple affairs of pleated yellow linen bound with pink which shed a soft glow when lighted.

The brass-top table beside the big

Vacation Supplies

If you are taking the kiddies into the country for the vacation season do not forget to pack plaster and bandage. The ready adhesive bandage is a simple and convenient dressing, as it can be cut into strips of required size and is ready for use.

You will need peroxide of hydrogen for bee stings, a bottle of mercurio-chrome for cuts and bruises, tincture of iodine for burns, bicarbonate of soda for tooth powder, glycerine for prevent sunburn.

Most druggists put up excellent lotions to repel mosquitoes, but you had better have some spirits of ammonia on hand in case of mosquito bites. Boric acid will be found useful for making a mild antiseptic solution in case of accidents.

You may find a face hot water bag very handy, for toothache and other pains that children are prone to.

For the Bridge Hostess

Something quite new, and that will be appreciated by the thoughtful hostess who entertains much at bridge and luncheon. Is a coathanger which has attached to it a large black moire bag, with a wide strap across the shoulder. Slip her coat upon the hanger, and her gloves and bag, &c., inside the bag, so that there is no danger of losing any of her personal belongings.

The Vacation At Home

THE great essential of the home vacation is to rest. Many women have not mastered the art of resting, hence many women do not get the full benefit of a vacation at home.

If you are a busy woman, you will not want to give up much time for rest, but during these summer months you have time to do this. Go to bed early, sleep well, and lie down even afternoon in a quiet place away from all talking. If you cannot sleep, even a half hour's rest will do you good.

Most druggists put up excellent lotions to repel mosquitoes, but you had better have some spirits of ammonia on hand in case of mosquito bites. This will also good for bee stings.

When you feel tired you should lie on your back with your arms at your sides and close your eyes for ten minutes. Just give way to complete relaxation, and let your body, mind, nerves and physical relief will follow.

After the ten minutes are up you can resume your duties, feeling like a new woman. Do this whenever you feel tired. Avoid fatiguing tasks. Think for thought the housekeeping can be arranged and accomplished during the morning hours leaving the afternoon for rest and recreation.

The Farmer's Advice

By Alfalfa Smith

HAVE you ever noticed the devastating effects of HATE?

I know a grandmother who hated her daughter-in-law for five years. Finally her grandchild came to live with the old lady and this enraged her to greater fury.

Finally the grandmother fell down stairs and when she came to, she realized the great truth that what she should do was to LOVE her daughter-in-law instead of hating her.

HATE RUSTS OUR HAPPINESS

Scientific Advances

According to a Chicago scientist colds are due to lack of proteins in diet, persons who eat too much sugar and starch being especially susceptible.

Russian scientists are planning to build a museum in which human and animal specimens will be frozen and kept in that condition for centuries. This will study the effect of extreme cold on metals and other substances. A German laboratory produces a temperature of 432 degrees below zero by liquefying helium gas and allowing it to expand.

World's Window

By Pierre Van Paassen

PARIS, July.

Mussolini!
"You don't say Mr. Socrates, Mr. Caesar or Mr. Alexander the Great, neither should you say Signor or Mr. Mussolini. Just Mussolini or the Duke," advises a Rome Fascist paper. Well, then, Mussolini staged one of his breakneck automobile journeys a few weeks ago from Rome to Milan. He tore through villages in his powerful Fiat torpedo at a rate of 120 Kilometers per hour. Local Police Chiefs had been warned by telegraph and telephone that he was coming, so the road was cleared. All people saw was just a cloud and they heard a terrific roar, that's all. But an accident happened. Near one small Romagna village the Duke lost control of his machine and landed in a pond. An old farmer working in a field nearby was the only witness of the accident and ran over. He succeeded in bringing the soaked and begrimed motorist to the shore. After getting his breath the gentleman said: "I am Mussolini. You have saved my life. You can ask anything you want. I will see that you get it. I give you my word." The farmer took off his cap. "Excellency," he stammered, "Excellency, if you really wish to confer a great favor upon me, may I ask Your Excellency never to tell anybody I saved your life." It's Mussolini who told the story himself.

Persian Jewels

French jewelry experts who recently went to Persia on the invitation of the Shah to value the crown jewels and other royal treasures found that certain stones and gems surpassed anything that has ever been known in the West. To have attempted to set price on some of the diamonds would have amounted to pure folly, they reported. In the course of their examinations and studies of the treasure hoard they came upon stacks of boxes, lined against one of the walls of a cellar, which contained fine crystal phials with colored water as they thought, filled with small white pebbles. Pearls, no doubt, they thought. The surprise of the experts can be imagined when upon looking a little closer they found the names and addresses of Parisian pharmacists on the phials. The white pebbles were nothing more than pills and things. It appeared that one of the Shahs, fifty or sixty years ago, made a journey to France. Nothing extraordinary about that, for Persian Shahs have always come to France. One of them lost his throne by overstaying his leave of absence a year or so. Anyway, the Shah saw a deluxe showcase in front of a pharmacy and was so struck with the artistic get-up of the pharmaceutical articles that he practically bought out the business and shipped it to Teheran. Once there the pills had been stored with the monarch's most precious possessions. He had forgotten all about them and gradually the pills had come to be regarded as crown treasures.

It is difficult to put into words a rule that can be used as an unerring guide to save a bad buy, but to say this: The only way to combine old periods is to determine whether each piece and each element of decoration fits in scale, in color, in feeling, in purpose with the general scheme. If these questions are answered in the affirmative, the pieces will be assembled according to the principles of good decoration, and the result must be harmonious, correct.

Vive Le Gueux!

Where is Brueghel? Where is that painter of beggars and tramps and bums and gnomes? Or Callot, that master of the brush who immortalized the ragged and the scrofulous and the outcasts of society? There would be work for them to do. None of our younger painters, our moderns, is creating beauty out of human misery and torment, or even attempting it. All the homeless, the hobos, the footloose and the free, the men who know belly-pinch but who are free and nobody's slaves, are coming to Paris to hold a congress. They will meet in the "Hall of Miracles," under the bridges, along the Seine quays, and they're coming from all over Europe. Something new in conventions. The man who is convoking his conferees on the road is one George Gog, a German. Gog was once a professor. He knew prosperity and had people's respect, won decorations and became a "Geheimrat," privy councilor in Stuttgart. Then he wandered off the respectful life. Now he doesn't even wash his neck, which he believes a stupid bourgeois superstition. The congress hopes to have the honor of seeing several famous men among its attendants, Maxim Gorky, Karl Hahn, sun, winner of the Nobel Prize for literature, and, of course, Panait Istrati, the great Roumanian story teller, among others.

(Copyright, 1929)

FROM THE WISE

No school is more necessary to children than patience, because either the will must be broken in childhood, or the heart in old age.

—Richter.

Pedantry crams our heads with learned lumber and takes out our brains to make room for it.

—Colton.

Society and Club News

J. J. MASSEYS RETURN FROM WESTERN TOUR

Mr. and Mrs. John J. Massey and family of 330 Thirtieth street, 5985 Orchard avenue, announced back home from an extensive engagement of their daughter Miss Paul Pack to Manuel Cano, police officer of the Tijuana border line.

They drove east as far as Edge-of-the-World S. D., where they visited the famous Homestake gold mine in South Dakota. They spent a short time in Yellowstone National park; and at Salt Lake City, Utah. They drove via Oregon going over the Columbia river highway. The trip north was made up the Redwood highway.

Visitors At Bargar Home

Mr. and Mrs. Walter Gardner and family of Salem, Ore., are visitors at the home of Mr. and Mrs. C. L. Bargar, 4331 Nevins avenue.

The Gardners are on a motor tour of California.

Walkers Have Utah Visitors

Mr. and Mrs. W. A. Earl and children of Salt Lake City are visiting at the home of Mr. and Mrs. J. C. Walker, 1759 Pennsylvania avenue this week. They will remain in the bay district for several weeks, making Richmond their headquarters.

Altar Guild To Hold Session

The Altar guild of St. Edmund's church will meet the afternoon at the home of Mrs. Robert Brice, 231 South Twelfth street. A full attendance is desired by the leaders.

LOCAL GIRL WILL MARRY IN SOUTH

Mr. and Mrs. T. A. Pack of 5985 Orchard avenue, announced the marriage will take place on September 1st.

The exact date has not been set. Following her marriage, Miss Pack plans to make her home in the southern part of the state.

TAHOE COUNCIL ENTERTAINS AT HOBO PARTY

Members of Tahoe council gave a Hobo party last night following a business session in Moose hall. Refreshments were served by a committee composed of Mrs. Esther Smith, Mrs. Mabel Freitas and Miss Jeanette Bucarelli.

Miss Violet Green, a local resident and called a special meeting to be held Friday night in the home of Mrs. Mabel Freitas, 621 Twenty-first street.

UNITY LODGE ENTERTAINS AT PICNIC

Members of the Unity Lodge

of St. George and their families spent an enjoyable afternoon at the beach near Blakely's quarry yesterday. Laundry preceded it by an afternoon of swimming and fun.

The members will meet again next Tuesday, but no definite plans have been made as to the afternoon form of entertainment.

Prizes were awarded to George Newell, Mrs. Felecia Novarini, Mrs. Lillian Gomez, Mrs. Prudence Rose and Mrs. Sarah Pitchford. The door prize, a box of groceries, was received by Mrs. Anna Keaton.

At the weekly whist party yesterday afternoon, prizes were received by Mrs. May Campbell, Miss Ethel Sargent, Mrs. Miller and Mrs. Margaret Simpson.

Initiation will be held Tuesday night. Plans will be discussed for the picnic to be held by northern California lodges in Fairfax park on Sept. 8.

T. F. B. GROUP WHIST PARTY WELL ATTENDED

A well attended whist party was held last night in Musicians hall by the members of the Fraternal Brotherhood. Mrs. Mary Doyle was chairman of the committee in charge of arrangements.

Prizes were awarded to George Newell, Mrs. Felecia Novarini, Mrs. Lillian Gomez, Mrs. Prudence Rose and Mrs. Sarah Pitchford.

The door prize, a box of groceries, was received by Mrs. Anna Keaton.

At the weekly whist party yesterday afternoon, prizes were received by Mrs. May Campbell, Miss Ethel Sargent, Mrs. Miller and Mrs. Margaret Simpson.

Initiation will be held Tuesday night. Plans will be discussed for the picnic to be held by northern California lodges in Fairfax park on Sept. 8.

Richmond Girls On Vacation Trip

Miss Georgia Johnson, cashier at the municipal natatorium, and Miss Arlette Coon of the American Trust company are on a two-week vacation. They plan to drive up the Redwood highway to points in Oregon and Washington and also expect to cross the border into British Columbia.

Drama Club To Be Formed Here

Mrs. Francis Kent, president of the Richmond club, has called a meeting for this afternoon in the Richmond clubhouse for all members interested in the formation of a Little Theater group. Plans for a number of plays to be presented during the year will be discussed. The meeting will begin at 2 o'clock.

Ohio Visitors At Otto Poulsen Home

Mrs. John Myers Hubbard and children of Cincinnati, O., are spending several days with Mr. and Mrs. Otto Poulsen, 533 Thirteenth street. Mrs. Hubbard is a cousin of Mrs. Poulsen.

City Purchases Own Abbatoir

SHEFFIELD, Eng. — Sheffield has just opened the first municipally owned slaughter house and wholesale meat market in this country.

The New BUICK

NEW Fisher styling... NEW 99 Horsepower Valve-in-Head Engine*
NEW Controlled Servo Mechanical Brakes... NEW Steering Gear
NEW Road Shock Eliminator • NEW Double Acting Shock Absorbers
NEW Non Glare Windshield

New Controlled Servo Enclosed Mechanical Brakes

Buick's new controlled Servo mechanical brakes—the most effective braking system ever developed—not only are of the favored internal-expanding type, but are fully protected against dust, dirt and moisture and provide maximum braking under all road and weather conditions. These remarkable new brakes are self-energizing, which means that part of the braking effort is provided by the car's own motion; they are fully controlled through the foot pedal, thus eliminating all possibility of "grabbing." A single test will prove Buick's new controlled Servo brakes the smoothest, most positive, and most easily operated ever developed for any motor car.

New Longer Springs—with New Double-Acting Lovejoy Hydraulic Shock Absorbers

The new Buick introduces an unparalleled comfort combination in its new, longer rear springs and new double-acting Lovejoy Hydraulic Shock Absorbers. These rear springs give the car a free and easy cushioning motion which is controlled in both directions by the double-acting shock absorbers—thus eliminating both bound and rebound under severest road conditions. Through the medium of these two wonderful new comfort factors, Buick has widened still further its decisive leadership in riding luxury.

New Road Shock Eliminator—New Steering Gear

Two vitally important features of the new Buick—a new steering gear and new road shock eliminator—mark the greatest contribution to handling ease and roadability achieved in recent years. The new steering gear, of worm and roller type, provides matchless steering ease throughout the entire turning range. The new road shock eliminator, built into the frame on the steering gear side, effectively absorbs road shocks and prevents them from being transmitted to the steering wheel. The result of these twin features—found only in Buick—is unrivaled driving comfort at all speeds.

America has taken this new Buick to its heart. Millions have thronged to see it... tens of thousands have already placed orders... other thousands have requested demonstrations... and the reasons will be instantly apparent when you call at our showrooms and inspect the matchless array of new Buick models. **

The fact is that in the five major elements of motor car appeal—beauty, performance, comfort, safety, value—this new Buick with Body by Fisher strides far ahead of any other car in the entire quality field.

New Fisher Styling

The new Buick Bodies by Fisher are longer, lower, more luxurious. They reveal new Fisher styling—new beauty of line and appointment—new colors—which have won the outspoken admiration of all who have seen them. And in addition they introduce a host of new features of utility and convenience, including the new Fisher Non-Glare Windshield for safer night driving; new and richer upholstery; and new fittings and appointments of princely luxury.

Pacemaker of Performance

Moreover, Buick for 1930 reveals this same marked supremacy—this same increased leadership—in fleet, spirited behavior on the road. Its new and bigger Valve-in-Head engine—developing 99 horsepower—provides matchless new virility, pickup, swiftness and flexibility. A single drive will prove it the pacemaker of performance. And the same drive will disclose marvelous new handling ease, comfort and safety, due to a new

and improved steering gear and new road shock eliminator; new double-acting shock absorbers which check both bound and rebound; and new controlled Servo enclosed mechanical brakes, the most effective braking system employed on any car in the world.

See, Drive and Own This New Buick

Bear in mind, this new Buick with its many advancements is offered at new low prices—in three new series and three new wheelbases, with only one standard of quality throughout—the finest in its field.

Visit our showrooms today. See the new Buicks and arrange to drive one. Among the 14 attractive body types is exactly the Buick for you.

** So great is public confidence in Buick that thousands of motorists placed their orders for new Buicks before ever the car was shown.... Year after year, Buick sells more than 100,000 cars to Buick owners alone—more than the total output of the majority of cars in the Buick field.

New Peaks of Power*

The New Buick Valve-in-Head Engine
 The wonderful new Buick Valve-in-Head engine—developing 99 horsepower—represents the splendid climax of 26 years of construction in this once cutting-edge efficient type. It is a bigger engine—a sturdier engine—and provides greater speed as well as a power reserve more than adequate to any need which may arise. Moreover, this great new power plant is smoother and quieter, as well as more powerful and provides a measure of all-round performance without parallel in the Buick field.

*The new engines in the 132 and 124-inch wheelbase series develops 99 horsepower—the new engine in the 118-inch series, 80½ horsepower. Also it achieves this additional performance without increased gasoline consumption.

The New Fisher

Non-Glare Windshield... a Vital Contribution to Motoring Safety

The new Fisher non-glare windshield—a vitally important feature exclusive to Buick—can add greatly to the safety, pleasure and comfort of night driving. This new windshield—tilted at an angle of 7 degrees—protects the driver against the annoying and frequently dangerous reflection or glare from other cars. Test the new Buick and experience the remarkable advantages of this new and exclusive feature.

SPORTS

NORTHWEST TO FORM BALL LEAGUE

PORLAND, July 30.—UP—Restoration of organized baseball in the northwest similar to the old Northwest league, and the proposal of William Wrigley to shut the door of the Coast league on Portland and Seattle, has set northwest baseball circles afire.

Organization of a Class C league, for the purpose of developing young players for the Pacific Coast league teams, has met the approval of Thomas L. Turner, president of the Portland club; William H. Keppler, Seattle president and J. Cal Ewing, Oakland baseball magnate.

Turner and Keppler are particularly interested in the organization of a Class C Northwest league for more than one purpose yet they do not want to lose the Coast league franchises.

Game Declines

Baseball in the northwest during the last few years, from 1923 when Seattle won the Coast league pennant under Wade Killefer, has been on the decline. The two club presys believe that an utilization of a new northwest league will bring back the lost interest in the national pastime in this section.

This, perhaps, is the chief reason for their proposal to embrace Portland, Seattle, Spokane, Bellingham, Tacoma, Victoria, Aberdeen or Yakima into a new league, to be used as Ewing suggested, as a farm for young Coast league players.

The old Northwest league failed during the war. It consisted of the Portland Colts, Spokane Indians, Tacoma Tigers, Aberdeen Black Cats and teams from Seattle, Vancouver and Victoria.

Spokane still is a good baseball town. Coast league teams have played exhibition games there and have profited by the trip. It has created more enthusiasm toward the organization of the new league.

New League

The matter rests with the Coast league officials, however. Each Coast league team would, in all probability, support one of the entities in the new league, with Portland and Seattle sponsoring teams in their own cities.

The Chicago chewing gum magnate, owner of the Chicago Cubs, Los Angeles Angels, Catalina Island and what not, has announced his idea of the Coast league with Portland and Seattle carrying it out of it, making a California circuit. This has fired the fans of Seattle and Portland.

Both cities support the teams when they are winning. But of late years the teams haven't been of the highest class, and fans have neglected to visit the ball orchards.

During the war Seattle and Portland were dropped from the Coast league, but then only as an emergency measure, as they were welcomed back after the Armistice.

HOW "KID WONDER" CHOKES BALL OUT

WAR ON FRUIT FLY HALTS RUM FLOW

WASHINGTON, July 30.—UP—Liquor smuggling into Florida has been at least temporarily stopped because of the Mediterranean fruit fly infestation and rum runners are now landing their Bahamian cargoes further up the Atlantic coast, according to prohibition Commissioner Doran.

"The quarantine regulations in Florida have stopped all transports of liquor by ship and machines are examined minutely and all baggage sprayed," Doran said. "No liquor ships have cleared from the Bahamas for Florida for several weeks for the chances of being apprehended are now too great."

Doran said the southern rum-runners are now operating off Georgia, North and South Carolina and Virginia.

"Conditions over the entire nation are improving steadily," he continued. "Preliminary statistics from Canada show that liquor shipments cleared for the United States this month are considerably smaller than the cargoes for June. We have made a dent in the Detroit situation and the entire corps of agents there will be kept on duty throughout the summer."

In reply to quoted assertions by W. D. Euler, Canadian minister of national revenue, that nearly 100 percent of the liquor smuggling from Canada is carried on by United States citizens in United States boats, Doran said liquor runners between the two countries cannot be identified because they are not recorded in this country.

Doran said he now has 2,200 active agents on duty, an increase of 370 in the last few months. He said there would be no general shift of agents from their present posts before fall.

Classes In Life Saving, Swimming Will Open Today

Free swimming and life saving classes at the municipal natatorium will start this afternoon, under supervision of Ted Mallan.

The course is under auspices of the Red Cross chapter, which authorized Mallanni's recent trip to the Pacific Coast Lifesaving conference at Capitola, where he spent several weeks acquiring the latest methods in water sports and swimming.

Today will be girl's day from 2 to 4 o'clock in the afternoon, and boys will be instructed tomorrow during the same hours. Six young women from Berkeley have announced their intentions to take the course.

The first half hour of each lesson will be devoted to elementary swimming, according to Mallanni, in preparation of the test for beginner's Red Cross buttons. Children from 12 to 17 years of age will be enrolled in a junior lifesaving course, which will develop into an advanced class later on, for older persons as well. Advanced swimming classes will also be given according to the ability of those enrolled.

Those who plan to take these free lessons are urged to appear by 1:30 today and tomorrow for registration.

Local Hunters Preparing For Deer Hunting

Richmond nimrods are awaiting the opening of deer season tomorrow in district two and a half. This district includes the counties of Alameda, Contra Costa, Glenn, Lake, Marin, Monterey, Napa, San Benito, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Solano, Sonoma, Ventura and Yolo and parts of Fresno, Kern, Kings, Merced, San Joaquin, Stanislaus and Mendocino counties.

Local sporting goods stores report that a large number of deer tags have been sold.

Local parties planning to start at the first sign of dawn tomorrow morning include John A. Miller, deputy income tax collector, Frank Miller and William Brown, who will hunt in the Livermore hills; Clare Tyler, A. T. Wanass, L. T. Bolt and W. D. Leit, who will hunt in Lake county; Dr. Hall Vestal, Capt. Raymond Clark and Clinton Smith, to the West Walla club; M. A. Hays and Bill Sooley to Union; Samuel Korb and party to Eel river; A. C. Coster and Art Coon to Lake county; Lloyd Rice to Mendocino county; Frank Siava and Wirt Pierce in Yolo county district; G. Callegari and others to the northern part of the state and Drs. E. R. Guinan and C. J. Farlinger who will leave for Monkey Rock on Aug. 9.

\$90,000 Awards In Western Golf Play Scheduled

LOS ANGELES, July 30.—(UPI)—Golfers will reap a \$90,000 harvest this winter in western open tournaments, a schedule released by the Los Angeles junior chamber of commerce today showed.

The season will extend from November 15, when the qualifying round of the Hawaiian open will be played, until February 2, the final day of the San Antonio, Tex., open.

Richest of all will be the aqua Caliente open, of \$25,000, supplanting the \$10,000 Los Angeles open as the richest. The schedule:

Nov. 15-17—Hawaiian open, Honolulu, \$6000.
Nov. 28-30 — Berkeley open, \$4000.
Dec. 2-7 National P. G. A. at Santa Barbara, \$10,400.
Dec. 13-15—Catalina Island open, \$7500.
Dec. 17-18—San Gabriel open, \$2000.

Jan. 30-Feb. 2 — San Antonio, Tex., open, \$7500.

HOOVER LAUDS BRITISH IN PACT

WASHINGTON, July 30.—(U.P.)—President Hoover characterized Great Britain's acceptance of the principle of parity as "a forward step of the first importance" in efforts of further naval disarmament, in a letter tonight to Paul V. McNutt, national commander of the American Legion.

The letter was in reply to a recent protest filed by McNutt at the White House objecting to suspension of the building of three American cruisers. McNutt contended that in order to achieve parity with Great Britain, that country would have to stop building entirely and we would have to continue building.

The president said he felt the American Legion commander had been "misinformed" about the actual problems that face the United States in seeking further disarmament, "for they are far more intricate and far more difficult than can be solved by the simple formula you suggest."

Lands Legion

He expressed confidence that the American Legion would "be sympathetic with principles of parity by negotiations and of reduction and limitation of armament instead of competitive building, with its continuous expansion and all its train of world dangers."

The president's letter, made public at the White House, follows:

"I am glad to have your assurance that the American Legion supports the policy of parity for our navy with that of Great Britain. This principle is enunciated by our naval authorities as a completed defense of the United States in any contingency and defense is all that we seek."

Expenses Scored

The first step of the renewed consideration of reduction of the excessive world naval armament has been accepted of that principle as a preliminary to discussion between Great Britain and the United States. This is a forward step of the first importance.

"It seems to me that every person of common sense will agree that it is far better to at least try to establish such a relation by agreement before we resign ourselves to continued attempts to establish it by rival construction programs on both sides of the Atlantic. We need not disguise the fact that, aside from the capital ship limitations under the Washington treaty, competitive building has been in progress on both sides since the great war, and we have arrived only at disparity, not parity. It creates burdensome expenditure, a constant stream of suspicion, ill will and misunderstandings. Moreover, by constant expansion of naval strength we cannot fail to stimulate fear and ill-will throughout the rest of the world toward both of us, and thus defeat the very purpose which you have so well expressed as being the object of the Legion, when you say, 'the Legion stands uniformly for movements which will make permanent peace more certain and assure better understanding between nations.'

Wrigley Offers Channel Prize

PARIS, July 30.—(U.P.)—William Wrigley, American millionaire, is planning to offer \$25,000 in prizes for a trans-channel race in the early future, the United Press learned authoritatively today.

Myrtle Huddleston, American woman swimmer, has announced her intention of attempting to swim the English channel both ways without stopping within a fortnight.

Shirt Sleeved Cabinet

MEMBERS of President Herbert Hoover's cabinet, who are following his example by remaining at their desks in the capital during the hot spell, are getting the nation's work done in spite of the torrid weather that has sent most business men scurrying on vacations.

AVIATORS LAND AFTER 420 HOURS

(Continued from page 1)

Curtiss-Robertson Manufacturing company, makers of the plane and backers of the flight, that it was to be a motor-testing flight. Nothing was said about a new world's endurance record.

But when the Robin roared steadily on past its hundredth hour, the flight developed into a determined assault on the record of the monoplane Angeleno, which remained aloft over California for 246 hours.

Passed Mark

At 2:01 p.m. Tuesday July 23, the orange monoplane, flying in circles over the skyscrapers of downtown St. Louis, passed the record of the Angeleno, while crowds cheered and sirens blared.

An hour later at 3:17 p.m. a new official record was established and from then on a new world endurance record was made and broken with every turn of the Robin's propeller.

Among the thousands who saw the plane break the record of the Angeleno, were Mr. and Mrs. Samuel O'Brien, parents of "Obie." They arrived by automobile from Cedar Rapids, Ia.

The next day Jackson's parents, Mr. and Mrs. Henry Jackson, arrived from Fairbault, in a sister plane of the Robin.

Crowd Gathers

As the hours fell behind and the Robin's Challenger motor continued to roar powerfully and smoothly,

ly, crowds such as only Lindbergh had drawn, began to gather at Lambert-St. Louis field.

Gifts and donations for the aviators poured in from every side,

some of them sincere and sub-

stantial, some laughable and some obviously publicity stunts. One Chi-

ago false teeth firm offered its

services at any time.

The total rewards per day for

each of the men mounted to al-

most \$3000 by the end of the sec-

ond week. This included a \$100

per hour bonus from the Curtiss

Airplane company.

Thousands See Plane

Life on the Robin was not the

wearing monotony heretofore

been. The plane carried shaving

articles, Changes of clothing and

facilities for a daily sponge bath.

The fliers slept by turns on a

thick air mattress, on top of the

long gas tank which occupied the

space usually devoted to passenger

seats in Curtiss-Robin monoplanes.

During the long days of beauti-

ful weather while the Robin "loafed around" over St. Louis county,

thousands of people motored to

Lambert field and stood gazing

upward at the orange plane. Even

at night when only the red run-

ning lights could be seen circling

overhead, hundreds watched.

A press tent sprung up and report-

ers and photographers took up

their vigil.

Born On Farm

Jackson, who was born on the

farm at Fairbault, learned to fly

at Lambert field, and was in-

sstructor for von Hoffman Flying

school before becoming an exhi-

bition pilot with Curtiss Flying

Services. He is known as a "bar-

rel roll artist," establishing a

record of 417 consecutive rolls

last fall. In a barrel roll the

plane turns like a corkscrew wing

over wing, while flying horizont-

ally.

O'Brien, who is only 28, has

been flying for five years and was

for a time with Universal Flying

school here before joining the

Curtiss staff.

Ferry Boat Tested

On Richmond Run

A Keeno party was held last

night in Memorial hall by the

members of Honor post Veterans

of Foreign Wars and their friends.

Prizes were received by Mrs.

Jessie Mayers, Mrs. R. J. Berk,

Mrs. Margaret Summers, Mr. and

Mrs. Al A'loria, Mrs. Henrietta

Deasey, Phil Stenmark, W. A.

Vickerly and Ray Suy.

Refreshments were served by a

committee composed of Ed Sum-

mers, Frank Perry, William Dahl,

George Ford, John Mayers, Al

A'loria and George Imbach.

When the sacks are empty,

fill them again.
